

WAS YOUR ECD PROGRAMME REGISTERED BEFORE THE BANA PELE REGISTRATION DRIVE?

**If yes – you are already on eCares.
Let us help you get connected.**

The Department of Basic Education has a new online system for everything related to ECD called **eCares**.

If your ECD programme was registered with the DBE or DSD (PCR or programme registration) **before the Bana Pele ECD Registration Drive in 2024**, we have already loaded your programme's information onto eCares.

This means you do not have to start from the beginning. We have done the hard part for you.

But there is one important step still to complete.

WHAT YOU NEED TO DO

Get in touch with your nearest District Education Office so that we can:

- Confirm and update your programme's information together
- Give you your personal eCares login details
- Show you how to use the eCares system

WHAT TO BRING TO YOUR DISTRICT OFFICE

- Your ECD programme's registration certificate OR SLA/TPA contract
- Your ID document

WHY ECARES MATTERS FOR YOUR CENTRE

eCares is the department's new online home for everything ECD. We are building it to make things simpler and faster for you.

Once eCares is fully built, you will be able to:

- **Renew your ECD programme's registration** – no more paper applications
- **Apply for government funding** – quickly and easily
- **Get updates on the progress of your applications** – no need to travel to your district office

We want to make sure your centre is ready and does not miss out on any of these services.

DON'T DELAY, GET CONNECTED NOW

Contact your District Education Office as soon as you can. The sooner your profile is confirmed, the sooner you are able to use all the eCares applications and documentation functionalities for your ECD programme.
